CUTLINE

Discover our exclusive brand Cutline, a range of
high-performance rotary cutting tools designed to
deliver excellent results and increase output.

Live Demonstrations and Teams of Experts available throughout the day!

RUBIX
CUTTING &
MACHINING

HURCO HURCO: Live demonstrations on Hurco's most popular 5 axis machining centre, the VMX42SRTi. Outstanding capacity compared to footprint size. With ability to work to the same standards for high-power 3 axis applications as for complex 5 axis 3D contouring. Also featuring live demonstrations on the Hurco TM8i CNC lathe.

hyperMILL hyperMILL: OPEN MIND, a powerful CAM solution for machine tool and control independent NC programming.

lungaloy TUNGALOY: Live machining demonstrations of the exciting and expansive Tungaloy AddForce range. Tungaloy UK will be offering attractive promotional discounts available through distribution partners Rubix Cutting & Machining.

RÖHM ROHM will be displaying a number of new products including, Easy Lock Zero point pallet system, The Duro- A-RC Quick jaw change chuck, CoAE Face driver system used for turning/milling and the KZS-P pneumatic chuck for automatic robot loading.

Master Fluid SOLUTIONS MASTER FLUID SOLUTIONS: Clean, safe and cost effective metalworking fluids with a 12 month guarantee sump life. Approved by Boeing, Airbus, Bombardier, Safran, Rolls Royce and many more!

HAIMER HAIMER Power Clamp can give you the edge that will allow you to sustain a long-term competitive advantage for your company.

Huvema HUVEMA are a market leader in the supply of metalworking manual machine tools and accessories. Supplying complete workshops into industry professionals and hobbyists.
